

转专业录取规则及参考指南

为帮助同学清晰理解转专业流程，确保录取过程公平、透明，现将转专业的规则细化说明如下，供同学申请转专业时参考。

1. 申请转入专业数量说明

- 1.1. 每位同学在转专业申请阶段，最多可填报 3 个转入专业，并按优先级依次确定为第一、第二、第三志愿；若同学仅有意向 1-2 个专业，也可根据自身需求填报，无强制数量要求。

2. 录取顺序规则

- 2.1. 转专业录取严格按照志愿优先级顺序进行审核：

- 首先对所有同学的第一志愿进行集中审核与录取；
- 仅当未达到第一志愿录取要求时，才会将其纳入第二志愿的审核队列；
- 若第二志愿仍未通过，再进入第三志愿的审核流程。

3. 核心录取规则

- 3.1. 按累计平均成绩绩点(cGPA)排名录取，并严格在专业计划名额范围内开展。录取以申请者的 cGPA 为核心依据进行排名，不区分原专业，均一视同仁。
- 3.2. 志愿依次递补审核：若同学未满足前一志愿（如第一志愿）的录取条件，无需额外提交申请，该生的申请材料转入下一志愿（如第二志愿）的审核流程，直至三个志愿均审核完毕或被某一志愿录取。
- 3.3. 所有录取志愿的最终结果均需经学院审批确认。

4. 录取标准细则

4.1. 名额限制计算方式

每个转入专业的计划录取人数，统一按该专业对应年级总人数的 30% 设定。

示例：若 A 专业当前大二总人数为 130 人，其转专业计划录取的大二人数为 $130 \times 30\% = 39$ 人，仅在该名额内完成录取。

4.2. 累计平均成绩绩点排名录取要求

在专业计划名额范围内，录取将严格按照申请者的累计平均成绩绩点（cGPA）从高到低排序，取排名靠前的学生直至名额满额。

示例：B 专业计划录取 20 人，若有 30 人申请，仅累计平均成绩绩点排名前 20 的申请者可被纳入录取范围。

4.3. 未达标者不予录取（即使名额未满）

即使某专业的计划录取名额未满，若剩余申请者的 cGPA 未达到学院为该专业设定的期望录取标准，也不会被录取。

注意：该期望录取标准并非固定线，将由学院根据申请情况动态划定。

5. 申诉阶段志愿数量限制说明

5.1. 进入申诉阶段后，学生仅可选择 1 个转入专业提交申诉申请，不可同时对多个专业申诉。

5.2. 申诉资格与关键提醒

- 仅被申请转入专业明确拒绝的同学，才具备申诉资格；已被任一志愿录取（即使后续拒绝录取）的同学，无申诉资格。
- 示例：张三填报第一、第二志愿，最终被第二志愿录取，若他在签署录取承诺 (Undertaking) 阶段选择拒绝该录取，因为张三已获得过录取资格，所以张三没有申诉权限。

6. 转专业次数限制说明

6.1. 若同学在签署录取承诺阶段拒绝已获得的录取资格，将不计入“四年内仅可转专业 1 次”的次数限制，后续仍可申请转专业。

7. 录取示例

7.1. 示例一：

姓名：张三

累计平均成绩绩点 (cGPA)：2.9

情境：

假设 CST 的录取名额为 54 人，共有 50 名学生申请转入，其中张三排名第 50。CST 期望的录取 cGPA 为 3.0，尽管名额未满，张三因未达到学院的期望录取 cGPA 而未被录取。

7.2. 示例二：

姓名：李四

累计平均成绩绩点 (cGPA)：3.1

李四的志愿是:

第一志愿: DS

第二志愿: CST

情境:

专业	名额	第一志愿选择该专业的人数	录取期望总绩点	名额范围内最后一位申请者的总绩点
DS	39	52	3.2	3.2
CST	54	60	3.0	3.0

- 假设第一志愿 DS 专业的录取名额为 39 人, 共有 52 名学生申请转入, 其中李四排名第 50; 第一志愿 DS 录取标准 3.2, 李四不符合要求因此不予录取, 自动参与第二志愿的录取。
- 假设第二志愿 CST 专业的录取名额为 54 人, 共有 60 名学生申请转入, 其中张三排名第 50, 其中第一志愿选择了 CST 的学生按 cGPA 排名, 第 54 人的 cGPA 为 3.0。
因 CST 的名额已满, 对李四不予录取。
- 在申诉阶段, 李四申请转入 CST。但由于 CST 在第一阶段名额已满, 李四的申诉仍将不予通过。

8. 总结

- 8.1. 志愿优先级的重要性: 第一志愿录取时不考虑第二、第三志愿申请者, 建议将最有把握且最心仪的专业列为第一志愿。
- 8.2. 累计平均成绩绩点 (cGPA) 是核心指标: 不仅需达到学院期望标准, 还需在申请者中保持较高排名, 建议提前了解目标专业期望录取的 cGPA 大致范围。
- 8.3. 申诉仅针对“未被录取”情形: 若已获录取后放弃, 无法通过申诉重新申请其他专业, 需谨慎决策。

若在申请过程中遇到任何问题, 可随时咨询教务处学生支援组 ar_sss@uic.edu.cn。

Guidelines and Admission Rules for Programme Transfer

To assist students in clearly understanding the programme transfer process and to ensure fairness and transparency, the following comprehensive guidelines and rules are provided as a reference for students applying for a programme transfer:

1. Number of Programme Transfer Applications

- 1.1. During the programme transfer application phase, each student may apply for up to **three transfer programmes**, ranked in order of priority as the first, second, and third choices.

Students who are interested in only one or two programmes may apply accordingly, as there is no mandatory requirement to fill all three choices.

2. Admission Sequence Rules

- 2.1. Programme Transfer applications will be reviewed strictly based on the priority of the choices:
- All **first-choice applications** will be reviewed and processed collectively first.
 - Only if a student does not meet the admission requirements for their first choice will be move their application to the **second-choice review queue**.
 - If the second choice is also unsuccessful, the application will proceed to the **third-choice review**.

3. Core Admission Rules

- 3.1. Admissions are determined based on a ranking of **Cumulative Grade Point Average (cGPA)**, strictly adhering to the programme's quota limits. Applicants are ranked solely by their cGPA as the primary criterion. No distinction is made based on their original programmes, ensuring fair and equal consideration for all candidates.
- 3.2. **Sequential Preference Review:** If an applicant does not meet the admission requirements for their higher-ranked preference (e.g., first choice), there is no need to submit a separate application. The applicant's materials will be forward to the next preference (e.g., second choice) for evaluation. This process will continue until all three preferences have been reviewed or the applicant is successfully admitted to one of their choices.
- 3.3. All admissions decisions, regardless of preference, are subject to final approval by the respective faculty/school.

4. Admission Criteria Details

4.1. Quota Calculation

- The quota for each transfer programme will be set at **30% of the total number of students in the corresponding year of that programme**.
- For example: If Programme A has 130 students in its second year, the transfer quota for Year-2 students of that programme will be **$130 \times 30\% = 39$ students**.

4.2. cGPA Ranking Requirement

- Within the allocated quota, applicants will be admitted strictly based on their cGPA ranking, from highest to lowest, until the quota is filled.
- Example: If Programme B has a transfer quota of 20 students and 30 students apply, only the top 20 applicants ranked by cGPA will be admitted.

4.3. Non-Admission for Below-Standard Applicants (Even if Quota Is Unfilled)

- If the remaining applicants fail to meet the **expected cGPA standard** set by the faculty/school for programme they will not be admitted, even if there are unfilled spots.
- The expected cGPA standard is not fixed and will be determined by the faculty/school based on the pool of applicants.

5. Appeal Phase Rules

5.1. Limitation on the Number of Appeals

- During the appeal phase, students may only submit an appeal for **one transfer programme** and cannot appeal for multiple programmes simultaneously.

5.2. Eligibility for Appeals and Key Reminders

- Only students who have been explicitly rejected by all transfer programmes they applied for are eligible to submit an appeal.
- Students who have already been admitted to any of their choices (even if they later decline the offer) are not eligible to appeal.

Example: If Zhang San is admitted to their second-choice programme but declines the offer during the Undertaking confirmation phase, Zhang will not be eligible to appeal.

6. Limitation on Transfer Frequency

- ##### 6.1.
- Declining an admission offer during the undertaking confirmation phase will not count toward the **“one transfer per four years” limit**, meaning students may still apply for a transfer in the future.

7. Admission Examples

7.1. Example 1

Name: Zhang San

cGPA: 2.9

- Suppose the transfer quota for CST is 54 students, and 50 students apply. Zhang San ranks 50th by cGPA.
- However, the expected cGPA standard for CST is 3.0. Despite the quota not being filled, Zhang San is not admitted because their cGPA does not meet the expected standard.

7.2. Example 2

Name: Li Si

cGPA: 3.1

Choices:

- First Choice: DS
- Second Choice: CST

Programme	Quota	Number of First-choice Applicants	Expected cGPA	cGPA of the Last Admitted Applicant (within the Quota Limit)
DS	39	52	3.2	3.2
CST	54	60	3.0	3.0

- Suppose the quota for DS is 39 students, and a total of 52 students applied to transfer into the programme. Among them, Li Si is ranked 50th.
- The first-choice admission standard for DS is 3.2. Since Li Si does not meet the requirement, Li Si is not admitted and it is considered for Li's second-choice programme.
- Suppose the quota for CST is 54 students, and a total of 60 students applied to transfer into the programme. Among them, Zhang San is ranked 50th.
- For the second-choice CST program, the quota is 54 students. First-choice applicants for CST are ranked by cGPA, and the cGPA of the 54th-ranked student is 3.0.
- Since CST is Li Si's second choice and the first-choice applicants have already filled the quota, Li Si is not admitted to CST.
- During the appeal stage, Li Si applies to transfer into CST. However, since CST's quota was already filled during the first stage, Li Si's appeal is also denied.

8. Summary

8.1. Importance of Prioritizing Choices:

First-choice applicants are given priority during the admission process, with no consideration for second- or third-choice applicants. Students are advised to list their most desired and confident programme as their first choice.

8.2. cGPA as the Core Indicator:

Applicants must not only meet the expected cGPA standard but also rank highly among all applicants. Students are encouraged to check the expected cGPA requirements for their target programme based on past admissions.

8.3. Appeals Are Only for “Not Admitted” Cases:

Students who decline an admission offer will not be eligible to appeal for other programmes. Decisions should be made carefully.

If you encounter any issues during the application process, feel free to contact the Academic Registry's Student Support Team at ar_sss@uic.edu.cn.
